

## 2015 Northeast Experimental Fly-in

The certification of your homebuilt aircraft as an Experimental Amateur Built (E-AB) or as an Experimental Light Sport Aircraft (ELSA) can seem complicated to the uninitiated, however good advice can make that process much easier. Learn from a Designated Airworthiness Representative (DAR) on what is looked for during inspection and the issuance of the airworthiness certificate under the "51% Rule".

**Directions:** This meeting will be held in Hangar #3. No GPS address for airport GATE 4, so when near 400 Holt Rd., follow the EAA signs. Ideally, please arrive between 9:00-10:30 when we will have someone manning the gate for entry. Outside those times, please call the number on the paper taped to the yellow post for someone to come let you in.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
